WEST END AVENUE
PEDIATRIC & ADULT DENTISTRY

Dear New Patient,

Welcome to our dental family! Thank you for choosing us to be your partner in achieving and maintaining a healthy smile. We understand that choosing a dental provider is an important decision, and we are committed to making your experience comfortable, positive, and rewarding.

Our approach to dentistry begins with understanding you, your oral health, and your individual needs. During your initial visit, we will perform a comprehensive examination to establish a clear picture of your dental health and create a strong foundation for personalized care.

We believe that great dentistry goes beyond treating problems as they arise. Preventive care, early detection, and patient education are essential to maintaining a healthy smile for years to come. Our goal is to help you understand your oral health, feel confident in your daily care, and make informed decisions about your treatment.

We believe you should always understand the *why* behind your dental care. We take pride in providing honest, transparent recommendations and making time for meaningful conversations with our patients. If treatment is recommended, we want you to understand what we see, why it matters, what your options are, and what can happen if treatment is delayed. We welcome your questions and will never want you to feel that you are simply being handed a treatment plan without understanding the reasoning behind it.

We are also proud to offer comprehensive dental services designed to meet a wide range of your oral health needs under one roof. From preventive and restorative dentistry to more advanced treatments, our goal is to provide coordinated, convenient care whenever possible, minimizing the need for outside referrals and helping you feel confident that your dental health is in capable hands.

Above all, we value the trust you place in us. Open communication, mutual respect, and a personalized approach are at the heart of the relationships we build with our patients. Whether you have questions about your treatment, your options, or your care in general, we encourage you to speak openly with us. We are here to listen, guide, and work alongside you every step of the way.

Your oral health is our priority, and we look forward to building a lasting relationship with you and helping you maintain a healthy, confident smile for years to come.

Thank you for the opportunity to be part of your dental care journey.

Warmly,

Dr. Sumith “Sumi” Jampana
